24<sup>th</sup> October 2024

Dear Parent/ Carer

As you will be aware if you drop your child to school in the morning and/ or collect your child after school, roads around the school can become very congested. Could we please ask you to be considerate of local residents, in particular access to their property and also of the students who are making their way to/ from school. We do continually educate our students with respect to road safety and making sure that they cross roads at appropriate points but would ask you, as parents/ carers, to respect any signage that may be in place relating to parking restrictions and speed limits. Please can parents and carers also make sure that when they are picking students up or dropping off on Bobmore Lane that they do not park across the school gates and prevent access to and from the school.

It may be easier for some parents/ carers to use the Redgrave Sports Centre (RSC) entrance at the end of school after 3:10 once school transport has left to pick up from the Redgrave Sports Centre car park - this would alleviate some of the parking concerns raised by local residents and also make it safer for students along what is an already congested Bobmore Lane.

Regards

Great Marlow School
