

21st September 2026

Health and Society Open Day 21st October 2026

Dear Parent / Carer,

We are organising a Year 12/13 trip to Bucks New University High Wycombe campus on 21st October for an Open Day linked to Healthcare, Education and Sports subjects. The visit would be of interest to those students who are considering careers in these sectors.

Students can **choose two different 90-minute sessions** to take part in during the day from the following:

- Nursing
- Midwifery
- Social Work
- Paramedic Science
- Operating Department Practice
- Sport
- Public Health
- Psychology
- Health and Social Science
- Education
- Diagnostic Radiography
- Physiotherapy
- Occupational Therapy.

The trip is not compulsory. We are aiming for it to be inclusive of all students that are allocated a place and will try to accommodate student needs as far as is possible. At the moment we are planning to travel by minibus so there would be no cost to the students. If there is a lot of interest, we may need to hire transport and would therefore need a contribution towards the cost.

We will leave the school promptly at 9.45am and aim to be back by 3pm.

Please complete this [Expression of interest: Health and Society Open Day – Fill in form](#)

by this Monday 21st September if your child would like to attend the trip.

Please note that completion of the expression of interest does not secure your child a place.

If we have more students interested than places available, student names will be picked randomly.

If your child is successful in gaining a place, you will be emailed with information about what to do next to confirm that place.

Please do not hesitate to contact me on mbrunt@gms.bucks.sch.uk should you need further details.

Yours faithfully,

Margaret Brunt
